

# CEC SAC Meeting 3-25-2021

The event elevates:

What events can occur?

What is sanctioned?

What types of activities need pre-approval?

What prizes can be given?

What policies need to be elevated, particularly to staff?

Can SAC members get access to staff handbook?

Looking in at the current policy that is in place and as an advisory committee to clarify, educate, promote policy and appropriate response

Parent Engagement Survey:

Incorporate network language template / questions / language to also include students, faculty, leadership?

Include in the survey culture / climate questions – including safety, understanding “safe-to-tell”?What

What current parent surveys exist in the network?

The survey must be normed through the network. The staff survey and the student survey are both provided by Gallup. Network leadership are not comfortable with developing an independent localized version. However, we can look at the current network survey and provide input.

We do need the survey to provide an opportunity to promote the positive.

If there are 5 questions that we can develop here we can take these questions to the network.

How to pull in parent volunteers, participate, actually engage... Not just feedback but support.

We should come up with a T-shirt design that we'd be proud to wear
